

Project Consulting in Pharma and Biotech

A happy, successful, healthy and peaceful New Year 2003 to all of you! In January 2003 we would like to present you with the news on **ASPIRAS**.

New service on the ASPIRAS website

You can read and download now all publications regarding ASPIRAS as well as informations on news and the team on the German start page of ASPIRAS (www.aspiras.de) in the categories ‚Veröffentlichungen‘ and ‚Download‘. Adaptation on the English site will follow suit.

Support in Business Development

We supported a bioinformatics company in business development via connecting the company with relevant potential customers in the pharmaceutical industry. We scheduled meetings, attended the client's presentations and actively furthered the cooperations.

Take a break!

On the relax page of ASPIRAS you will find a new photograph and a new citation to make the most of your **creative break**: www.aspiras.de/de/seiten/break.html

ACHEMA 2003

To present it's services in project management and business development for young biotech companies ASPIRAS Project Consulting is exhibiting in the VBU group booth on the 1st floor of Neues Forum at ACHEMA 2003 **in Frankfurt from May 19 to May 23, 2003**. To schedule meetings please contact Cathrin Pauly; pauly@aspiras.de.

The human factor at ASPIRAS

In December we received an e-mail from Marc Aspiras who had tested what was found in the web when entering his family name. Marc is a corpsman in the US Navy currently working in Bahrein. His **whole family** has considered medicine as a career, therefore they are quite proud that a company under the name of ASPIRAS is dedicated to medical issues.

Challenge us

Just **contact us non-committally** and tell us your problem. Based on a sound analysis *ASPIRAS* offers you a **coarse concept including a cost estimation**. After consultation with the client it provides the following **services**: project target identification, project planning regarding time, capacity, cost and manpower, project implementation and control and project documentation. *ASPIRAS* finalises projects effectively and in the agreed upon time frame. Please contact Cathrin Pauly, pauly@aspiras.de.
